

How easy is it for clients to find you?

When parents Google “headshots for child actors” or “acting coach for kids,” do they find you?

If not, you’re likely missing 50–100 potential clients every month to whoever is showing up on page one.

I’m Corey Ralston, founder of **Child Actor 101** — a community of over 12,000 parents actively searching for trusted professionals in the youth acting industry.

We’re launching the **Child Actor 101 Vendor & Professional Directory**, designed to rank at the top of Google for every major child-acting service category — from photographers and coaches to editors, stylists, and studios.

You can **add your business for free**, or choose a Standard or Pro listing for more visibility and perks:

Free Plan – \$0: basic business info, searchable listing

Standard – \$25/month or \$250/year: featured placement, logo, and direct contact links

Pro – \$50/month or \$500/year: top placement, multiple categories, image gallery and “101 Approved” eligibility

Create Your Listing

Founding Vendor Special (First 100 Only)

 **Founding Vendor Special — limited to the first 100**

You'll get **forever-locked pricing** (\$101 or \$199 every six months), so your rate never goes up.

Your listing is pushed to the **top of search results** when parents look for your service.

You'll earn the **exclusive “Founding Vendor” badge** — a permanent mark of early support that can't be earned later.

And your business will be **featured in launch marketing to more than 12,000 families** actively looking for trusted pros.

Why It Matters

Every month, hundreds — sometimes thousands — of parents search phrases like *“acting coach {City}”* or *“Stylists for kid actors.”*

On average, that’s **800 to 2,400 local searches** every month.

Within six months, our directory is projected to capture **30–50% of those searches**, which means **240 to 1,200 parents** will land on our listings — not random Google results.

That’s 240–1,200 chances for families to find **you** instead of your competitors.

And instead of spending **\$2,400–\$6,000 a year** on ads or SEO, you are seen for around **\$202 per year** — a fraction of the cost.
